

School Without Walls High School GPA Calculation Rubric

Please reference the chart below for information on how School Without Walls High School calculates applicant Grade Point Average (GPA) for the purposes of SY22-23 admissions.

Grading Scale		GPA Calculation
Letter Grade	Percentage	
A	93%-100%	4.0
A-	90-92%	3.7
B+	87%-89%	3.3
B	83%-86%	3.0
B-	80%-82%	2.7
C+ or P*	77%-79%	2.3
C	73%-76%	2.0
C-	70%-72%	1.7
D+	67%-69%	1.0
D	64%-66%	1.0
F	63% and Below	0

*Note: In response to the COVID-19 health emergency-DCPS has prioritized equity and rigor in our grading policies to ensure all students are supported academically as they navigate the challenges of the pandemic. For SY19-20, SY20-21, and SY21-22 DCPS has modified its grading policy so that students who earn a “C” and/or “D” grade will see it displayed on their transcript as passing grades of “P,” indicating that a student demonstrated proficiency in the course.

While in high school GPA calculations the “P” grade will remain GPA neutral, for the purposes of selective school admissions, a “P” grade will receive the same numeric value as a C+, the highest possible grade that could be represented by a “P”.

However, if a student has submitted a report card with a “P” grade and wishes to re-submit their report card with the actual letter grades earned in the course, DCPS encourages the student to work with their school counselor to re-publish the report card with original grades and to re-submit their application/report card as necessary. The My School DC lottery deadline for applications to 9th-12th grades for SY22-23 is February 1, 2022.
